

MICROCHIP

Harmony Workshop (Hands on training)

Dear Sir/Madam

We have the pleasure of inviting you for the 1-st technical MPLAB Harmony Workshop Hands On seminar organized together by Comet Electronics and Microchip Technology!

MPLAB Harmony is a Software Tool to be used together with MPLABX. It is a Configuration and Implementation Tool for all PIC32 Microcontrollers and allows the user major savings in development time.

Class content:

- Elements of MPLAB Harmony
- Generation of small projects to start with MPLAB Harmony
- Demonstration and analysis of complex projects using multiple connectivity stacks, e.g. USB and TCP/IP stacks and a graphics library.

Several lab exercises intensify the learning process. All required development tools (PIC32MZ Starter Kit und Multimedia Expansion Board) as well as laptop computers are provided by Microchip as loaners during the training session.

Equipment you need:

- Please use your "own" PC
- Please install the latest MPLAB X version (www.microchip.com/MPLABX)
- Demo tools will be provided by Microchip

Agenda:

09:00 – 10:30	Kick off • Short Update about Microchip • Get your system running
10:30 – 11:00	Break
11:00 – 12:30	First Labs (Basics)
12:30 – 13:30	Lunch
13:30 – 15:30	Getting more complex in understanding and implementing more advanced project • USB and TCP/IP • Graphics Library's

The Event will take place on 02 June 2015 in Comet Electronics - Sofia: 47, Obikolna Str., District Druzhba 2.

The seminar is free, there is no fee tax. Please confirm your attendance no later than 18.05.2015!

We will be pleased to meet you!

For registration and more information on the seminar, please contact our representatives:
